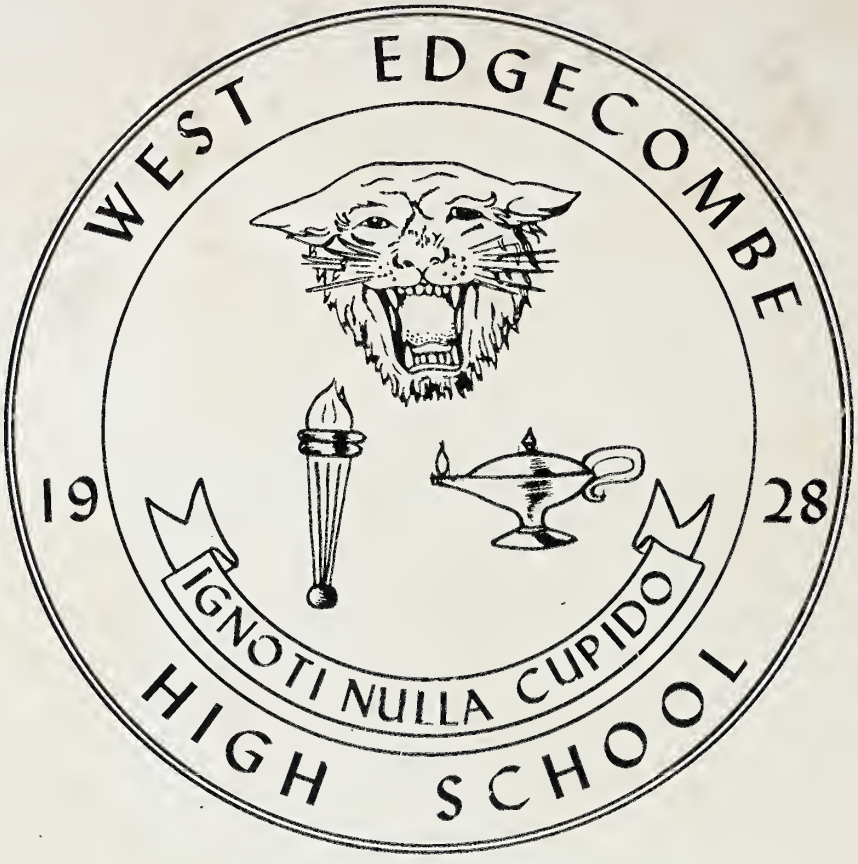
Foreword



To the Students, to the Faculty, to the Parents

With our school days drawing to a close, we reflect upon the experiences and the friends we have had. Our school days are filled with cherished memories which we shall never forget. The joys, the sorrows, the fun, the hard work -- these are all a part of our memories. Some are remembered better than others, such as that important game, the Junior-Senior, the thrill of being a senior, and at last the wonderful feeling of accomplishment when that coveted diploma will be placed in our hands. In this 1965 WESCOMB we have tried to preserve for you through pictures these wonderful experiences at West Edgecombe School.

Dedication

Mrs. Doris Batts

We the seniors, proudly dedicate this 1965 WESCOMB to you, Mrs. Doris Batts, for your untiring efforts and patience shown to us. Your cheerful greeting, perseverance, and capable management will long be remembered as the main cog at West Edgecombe School.

Miss Mary Batts

The Senior Class proudly dedicates this 1965 WESCOMB to Miss Mary Batts who has dedicated her life to the training of young people. She has laid the foundation for academic, moral and social activities that have played an important part in the later lives of her students. Her constant efforts in leading young people will long be remembered.

Administration

Mr. R.M. Cashwell—Principal

The West Edgecombe Senior Class of 1965 is great in many ways. It represents the greatest number we have ever had in a senior class. Its academic accomplishments have reached greater heights than ever before. Greater demands in all phases of school life have been successfully met.

This senior class also faces greater problems than any other class--problems in completing educational training, in human relationships at all levels, making a living, and facing the future in general; but, I am confident that your future efforts will continue to be great, that each challenge will be met, each hardship overcome, and that our state and nation will be greater because of you.
